

2014 CHORE EQUIPMENT CATALOG

AMERICAN CRAFTSMANSHIP SINCE 1933

PICTURE
PERFECT
FINISH

AN ARIENS FOR EVERY SEASON

Choose an Ariens chore product and you become part of our rich 80-year family heritage. My great-grandfather, Henry Ariens, started building equipment in 1933 when he developed the first American-made rotary tiller for commercial growers. Since that time, our history has been built on introducing the right chore products to get you through the seasons.

Those early tillers were eventually scaled back to meet the needs of home gardeners in the 1950s. Next, came the introduction of the legendary Sno-Thro®. With these products and others, we have earned a reputation for reliability, durability and designing the right tool for the job – chore equipment for customers who want a serious product for serious work.

Today, we are proud to carry on the Ariens tradition by offering a family of chore products engineered for every season. Whether you need to clear a path in the snow, split

wood or trim an edge, we offer the right tool for the job at hand.

Our vision is simple. Passionate People, Astounded Customers. So we continue to work by the standards my great-grandfather set forth when he built that first tiller. Ariens Company continues to manufacture products with the same drive for quality and respect for our customers that began in the early days ... so you can pass the power of our equipment on to your next generation.

Welcome to the family!

Dan Ariens

President

Generators / Pressure Washers / Specialty Cutters / Debris Handlers

No job is done right until it's completely done. Our full line of Chore & Finishing products can put the finishing touches on a beautiful landscape. Every Ariens chore and finishing product is easy to operate and easy to own, backed by the best warranties in the industry. Robust and rugged, you can rely on Ariens to handle your toughest jobs—from start to picture-perfect finish. To learn more about our Chore & Finishing products, please visit our website at Ariens.com.

POWER BRUSHES

FEATURES:

- Robust 28" or 36" wide brush options
- All-season Subaru engine with electric start provides optimal performance in any weather (12V key start on 926515)
- Automatic traction control optimizes maneuverability; steering is effortless
- 40-degree brush head rotation with an operator controlled pivot lock makes changing the head direction easy
- Height adjustment system accommodates various surfaces and optimizes brush wear
- Hydrostatic drive has infinitely variable speed selection, maintenance free operation and a robust design for long life and durability (Available on model 926515 only)
- Handwarmers keep hands toasty in even the bitterest of cold (Available on model 926515 only)

This multi-functional, all-season machine is capable of removing snow up to 6" deep, as well as other debris like sand, dirt and gravel from sidewalks, driveways or decorative surfaces like patio brick or cobblestone. This unit can also be used to dethatch and remove gravel from lawns.

EDGER & TRIMMER

EDGER

Add curb appeal with the Ariens Edger. It's all-steel design, 110-degree pivoting head and drop wheel provides unbeatable value; allowing an operator to cut, trim, bevel or edge nearly any landscape with one machine.

FEATURES:

- 4-Point cutting height adjustment
- Curb hop feature allows the right rear wheel to adjust vertically for edging along curbs
- Robust, ergonomic T-handle optimizes operator comfort and control
- Laterally adjustable front wheel for trimming
- 110-degree rotating pivot head for edging, trimming or beveling

TRIMMER

The Ariens String Trimmer gets into those hard to reach areas, clearing the tallest and toughest grass and weeds. There is not an easier, faster, or more reliable way to put the finishing touch on a beautifully manicured landscape.

FEATURES:

- Kohler® OHV XT engine; quiet operation and low maintenance
- Reinforced steel pivot head and 14-gauge stamped deck for added durability
- 4-position cutting height adjustment; easily tackles grass/weeds of various lengths
- Ergonomic, multi-position handlebars; fold up for convenient storage
- Deck swivels 15-degrees to the left or right for trimming along walls or fences

PRECISION TILLERS

Eliminate pesky weeds and get nutrient rich planting soil with Ariens Precision Tillers. Available in both front tine and rear tine models to suit your garden size and growing needs.

REAR TINE

FEATURES:

- Chain drive transmission for added torque
- 17" tilling width
- 6.5" tilling depth
- Adjustable handle accommodates operator height
- Dual rotating tines for forward and reverse travel

FRONT TINE

FEATURES:

- Chain drive transmission for added torque
- Three tilling widths - 12", 22" & 24"
- Heat treated tines for added durability
- 6" Tilling depth
- Folding handlebar for easy storage
- Adjustable rubber wheels and depth stake

GENERATORS

Whether you're tailgating, camping, at the jobsite, or in need of emergency backup power after a storm, Ariens has you covered. Check out our line of Ariens Generators: 1600 watt inverter, 5000 watt generator and 7500 watt generator.

2000i Inverter

- 2000 starting watts, 1600 running watts
- Powerful 79cc Ariens engine
- Smooth/clean power safe for sensitive electronics like computers, televisions and cell phones
- Electronic Smart Control matches the power output to the load requirement optimizing fuel consumption and operational noise
- 1.1 gal fuel tank provides up to 9.7 hrs run time at 25% load
- Lightweight - 46 lbs
- 2 - 120V, 20 amp outlets, 1-12V DC outlet

5000 Watt Generator

- 6250 starting watts, 5000 running watts
- Powerful 287cc Subaru engine
- Large 6-gallon fuel tank provides up to 12.5 hrs. run time at 50% load
- 4-120V outlets, 1-120V/240V outlet with circuit breaker protection
- Automatic voltage regulator helps provide clean operation

7500 Watt Generator

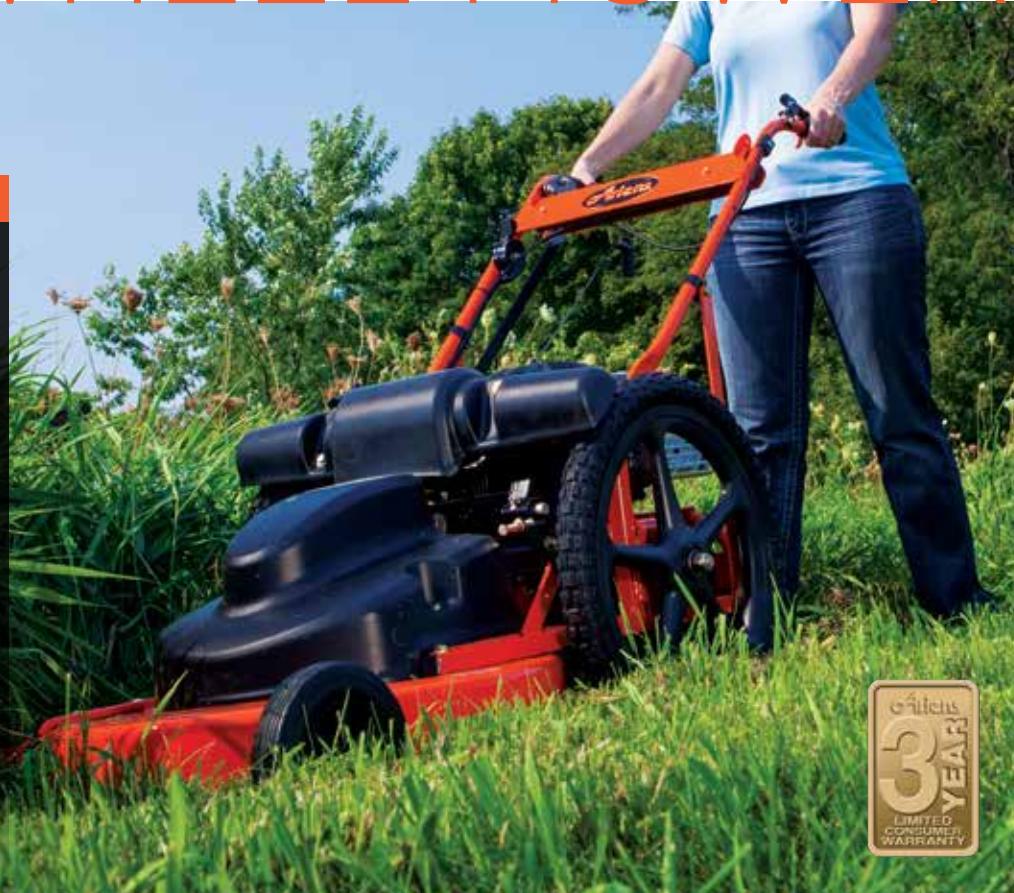

- 9375 starting watts, 7500 running watts
- Powerful 390cc Honda GX Engine with electric start
- Large 8-gallon fuel tank provides up to 12 hrs. run time at 50% load
- 4-120V outlets, 1-240V, 30 A outlet with circuit breaker protection
- Automatic voltage regulator helps provide clean operation
- Analog hour meter for tracking maintenance intervals

HIGH WHEEL MOWER

FEATURES:

- Large 20" composite rim rear wheels for added stability, maneuverability and traction
- 1" spindle shaft provides the strength needed to tackle tall grass
- Belt driven deck and wheel helps reduce engine damage risk and maintenance costs
- Adjustable height of cut system leaves a professional cut in all types of environments
- Heavy-duty rubber side discharge chute significantly lessens the damage to the surrounding environment and improves trimming capabilities
- Self-propelled for the power to push through the tallest grass, reducing operator fatigue

Make short work of tall grass, dense vegetation and brush with the Ariens Pro-24™ High Wheel Mower or Pro-24™ Brush Cutter. They are durably constructed and easy to operate. Once you take control, the value these machines bring will quickly become obvious.

BRUSH CUTTER

FEATURES:

- Large 20" solid rubber tires for added stability, maneuverability and traction
- 1" spindle shaft provides the strength needed to take down tree saplings up to 1.5" in diameter
- Clutching PTO drive allows the user to step away from the brush cutter and pick up debris in the clearing path without having to shut the unit down
- 10 gauge steel fabricated deck for added durability and strength
- Lighter and more maneuverable than most competitive brush cutters with a weight of 220 lbs
- Self-propelled for the power to push through brush and dense vegetation, reducing operator fatigue

LOG SPLITTER

Divide your work in half with an Ariens Log Splitter. Centrally-located controls and an open operating zone allow for operation from both sides of the machine. This significantly reduces the amount of bending, reaching, and walking required by the operator resulting in less operator fatigue and more time and energy for splitting.

FEATURES:

- Available in 3 models - 22-ton, 27-ton or 34-ton
- Built to last with cast iron hydraulic pumps, high temperature return line hoses, industrial couplings and replaceable axles
- Tapered wedge design requires less tonnage and splits logs faster
- Powerful Subaru® engines provide maximum efficiency, performance and power with minimal noise and emissions
- Horizontal and Vertical splitting positions for flexibility in splitting large, heavy logs
- Integrated log cradle keeps logs from falling to the ground

ALL-PURPOSE VAC

Quickly collect litter, leaves and debris with this high power - All Purpose Vacuum.

FEATURES:

- Rite-Hite Handlebar™ Adjustment offers 5 operating positions that provide a comfortable working experience for people of all heights. You can store the APV with the handlebars straight up and down or completely folded over dramatically reducing the space needed to store the APV. Rite-Hite also makes removing and replacing the bag easier. Simply adjust the handlebars to the upright position and remove the bag.
- Zipperless, No Fastener, Wire Formed Bag. Quick and easy to empty. The poly felt material and integrated dust skirt protect the operator from dust and debris that may seep through the bag.
- Suction Height Adjustment – Simply pull up on the lever and move the pin to 1 of 17 positions. Suction range from 0 to 5 inches.
- 13.5" Steel, 5-blade impeller with serrated edges maximizes debris reduction minimizing the amount of time the operator spends unloading.
- Large, 14" Solid Rubber Wheels enhance maneuverability on all surfaces.
- Powerful Subaru 190cc Overhead Cam Engine
- 1775 cfm of suction power
- Generous 31" Clearing Width
- 6 cu. ft./43 gal collection capacity
